

ISED ePing Alert Setup

<http://epingalert.org/en>

The screenshot shows the ISED ePing Platform website. The header includes the ePing logo, 'SPS & TBT Platform', and navigation links: Home, Search, Facts & figures, and Resources. Logos for the International Trade Centre, United Nations, and World Trade Organization are also present. The main banner features a world map with icons representing various trade-related activities and the text 'TRACK AND MANAGE INFORMATION ON PRODUCT REQUIREMENTS'. Below the banner are three buttons: 'Search notifications', 'Search trade concerns', and 'Receive alerts'. The 'Receive alerts' button is highlighted with a red circle and a red arrow pointing to it. Below the buttons, there is a section describing the platform's functionality and a list of features.

TRACK AND MANAGE INFORMATION ON PRODUCT REQUIREMENTS

Search notifications **Search trade concerns** **Receive alerts**

The platform facilitates tracking sanitary and phytosanitary (SPS) and technical barriers to trade (TBT) measures. As a user, you can, amongst others:

- Browse **notifications** on new and updated product regulations.
- Find information on **trade concerns** and **other documents** discussed in the WTO SPS and TBT Committees.
- Sign up to receive **email alerts** and to follow notifications on products and/or markets of interest.
- Locate information on **enquiry points and notification authorities**.
- **Reach out** to national and international counterparts.

Register to receive alerts

Registration

Personal information

If you have a WTO account, please use the same email address when filling out this form to facilitate navigating between different websites (e.g. eAgenda, Interprefy, Docs Online).

First name *	<input type="text"/>	Last name *	<input type="text"/>
Email *	<input type="text"/>	Gender	<input type="text"/>

Country/territory *	<input type="text"/>	Organization name *	<input type="text"/>

Select products and markets of interest

If you are looking for specific products, please note the following:

As not all notifications include HS or ICS Codes, and product names and spelling may vary, add terms of interest to the Product(s) field and also select the relevant HS and/or ICS Codes so that the search is as inclusive as possible and identifies all possible notifications on products of interest. The search results are cumulative, so if terms are included in the Products(s) field and HS and ICS codes are also selected, notifications matching any of the criteria will be included in your ePing email alert and/or incorporated into your registration filter. If you want to receive all notifications, do not select any products or export markets.

How to set filters for Canada

The screenshot shows the SPS&TBT Platform search interface. Red annotations highlight the following steps:

- Notifying Member:** Select "Canada" from the dropdown menu.
- Search more fields:** Click on the "Search more fields" button to expand the search criteria.
- Filters:** The expanded filters panel shows the following settings:
 - Notification type:** Select notification type(s)
 - HS code(s):** Select HS code(s)
 - ICS code(s):** 33.050 - Telecommunication terminal equipment; 33.060 - Radioco
 - Objectives:** Select objective(s)
 - Geographic/economic groups:** Select group(s)
 - ☐ Comment period open
 - ☐ Information added to international forum
 - ☐ Related to a trade concern
 -
 -

The main search results show 1 - 20 of 227 results. The first result is for Canada, titled "Publication of RSS-252, Issue 3 - Intelligent Transportation Systems' (ITS) On-Board Units (OBUs) in the 5895-5925 MHz Band", dated 07/01/2026.

Notifying Member:
select "Canada"

Click on the "Search more fields"
to show the "Filters".
"ICS code(s)": 33.050 and 33.060
